

The all-new Sportage.

Movement that inspires

The all-new Kia Sportage.

Inspiration comes in many forms.

If you're the sort of person who is eager to embrace innovation. To constantly be moving forward. To take things to the next level. Then let us inspire you with the all-new Kia Sportage. A range of urban SUVs dedicated to unleashing a whole new world of inspirational driving experiences. Designed to be bold and sophisticated. Combining driver-centric design with cutting-edge technology and state-of-the-art premium interiors. Powered by the latest Hybrid, Plug-In Hybrid and Mild Hybrid powertrains, as well as the newest generation of efficient gasoline and diesel engines. With a stunning new design architecture, bold sporty features and dramatic presence on any road. Choose the striking all-new Sportage or exhilarating Sportage GT-line and you can be sure that every drive will be a constant inspiration.

Advanced design
for inspired minds.

If passion for the beauty of nature brings you joy, then the all-new Sportage is your reliable place and space to be. From the very first glance, you'll see that it has been sculpted as a free-flowing bold and sophisticated organic form. Look closer and you will immediately appreciate how its beautifully shaped body creates such a strong presence on the road. From the clean, powerful contours rippling along the side, highlighted by its new chrome and glossy black window surround mouldings, to the swooping muscular fastback design. Accentuated by the dynamic rear spoiler, with razor-style signature LED taillights and sporty rear bumper, this is an urban SUV that connects you with your natural sense of adventure.

Bold ideas that
demand attention.

If you have decided to embrace change in the car you drive, then there has never been a better time than right now. The inspiration for the future of your driving has arrived with the all-new Sportage Plug-in Hybrid. Combining stunning looks and a premium interior with powerful, responsive and eco-efficient driving incorporating a sleek charging port. Showcasing Kia's striking signature tiger nose grille, iconic boomerang-style LED daytime running lights, LED foglamps and dramatic matrix LED headlamps. Add to that a new-generation Electronic Control Suspension* plus a new Terrain Mode to conquer any surface. With its muscular and sporty looks and commitment to changing the way we choose to drive in the future, the Sportage Plug-in Hybrid inspires respect for the decisions you make.

* Available only on GT-line

New horizons for forward thinkers.

When you push beyond what you see ahead, new horizons appear. That's where you find inspiration for new journeys of discovery. Very much like the experience you'll find in the all-new Sportage GT-line. In with its looks, character and sporty performance. Its impressive front features a cascading new black grille design with GT-line emblem and tiger nose. Balanced on either side are the iconic boomerang-style LED daytime running lights and LED foglamps. Together with distinctive matrix headlamps which feature the intelligent front lighting system. Notice the muscular front bumper and bonnet which glides seamlessly into taut lines across its refined body shape. Then the sleek and stylish door trims with glossy black side sills and a body-colour garnish, that add an extra dash of style and pace to its dynamic side profile. Finally, all topped off with a glossy side body colour and black gloss roof for extra impact. This urban SUV not only takes daring and modern design to the next level, it's ready and waiting for your next adventure.

Dedicated 19" alloy wheels*.
Designed exclusively for the Sportage GT-line and Plug-in Hybrid, the alloy wheels with distinctive black accents offer an extra sporty appeal.

* Not available on the Sportage Hybrid

Refined space that sets new standards.

Sit inside the all-new Sportage GT-line and immerse yourself in an interior that delivers an outstanding experience in comfort, quality, design and cutting-edge technology. Creating a driver-centric experience designed around you and your passengers. Sitting at the centre of the sporty cockpit is a beautifully sculpted curved display, integrating a 12.3" driver instrument cluster and 12.3" high-tech multimedia touchscreen plus multimode display. In front of you is the GT-line embossed leather D-cut steering wheel. Above you is a sleek black roof liner and to the side of you, door panels with a touch of suede. Surrounding you is an 8-speaker Harman Kardon sound system. Throughout the spacious cabin with its ambient lighting, there's fully automatic triple-zone climate control for front and rear passengers including driver only* AC mode control, as well. Wherever you look you'll discover the finest materials, from the dashboard to the seating, to add that extra style. This is, indeed, the very best in refined luxury for you and everyone to enjoy.

* Available only on GT-line

Dynamic seating design with GT-line embossing. Sit back and enjoy premium black leather-effect seating with suede bolsters and stunning integrated white stitching and piping, finished off with the distinctive embossed GT-line emblem.

Eye-catching interior garnish. Inside the Sportage and Sportage GT-line you'll find a sleek patterned matt chrome design on the dashboard, as well as on the interior door panels and door handles, for that contemporary touch of style.

Inspired engineering to lead the charge.

We live in changing times - for you and all of us. Times that call for remarkable innovation. That make us think and act differently. From the very first stage of development, the all-new Sportage Plug-in Hybrid was destined to embrace that difference, by using the latest electrified power train technologies. With easy charging via the integrated charging port, there's even the added flexibility to charge the battery at home or at public charging stations on the road and at service points.

Just as importantly, the Sportage Plug-in Hybrid has been carefully engineered to minimise any impact on passenger and luggage space. The high-voltage battery is placed centrally, ensuring a balanced weight distribution and an interior space that is practical, comfortable and versatile. The state-of-the-art Sportage battery also features a new high-tech management unit that constantly monitors the state of the battery.

Smarter driving technology. At the touch of the Hybrid/Electric (HEV/EV) button located on the centre console, you can prioritise between electric and hybrid mode. In EV mode - ideal for urban driving - the Sportage Plug-in Hybrid prioritises electric-only energy for emissions-free driving*. In HEV mode, it operates both energy sources, changing between using the petrol engine only, the electric engine only, or both simultaneously depending on the situation.

* There are certain situations in which the petrol engine will automatically activate even when the vehicle is in EV mode. Examples could include: when the hybrid battery state of charge is reduced to a certain level, when acceleration demand is high, and/or when it is required to heat up the cabin).

Dedicated styling
that makes a statement.

Style, technology, efficiency, connectivity - for you and for your future. Whatever your needs, you'll find it in the all-new Sportage Mild Hybrid, including Kia's Idle Stop-and-Go technology. By cleverly pairing the latest 1.6-litre turbo petrol engine and 1.6-litre clean diesel engine with a 48-volt lithium-ion battery, it can reduce fuel consumption and vehicle emissions levels. Add to that, the integrated 'e-system' recovers kinetic energy during deceleration phases to provide torque assistance when accelerating.

What's more, its advanced technology is more than matched by its stunning design. From the sweeping bonnet, detailed black grille front, iconic boomerang-shaped LED daylight running lights and LED foglamps, plus dramatic matrix headlights. Along its dynamic organic silhouette with precise and striking side contours, to the fastback rear with bold rear spoiler and razor-style signature LED taillights, the Sportage really is a choice that drives you and yours forward.

Where the centre of attention is you.

At Kia, we believe what's inside us inspires us to better things. That's exactly what you'll find inside the spacious all-new Sportage where the cabin has been carefully crafted to fuse breakthrough technology with innovative features, premium materials and modern style. At the centre of your state-of-the-art interior space sits a sweeping sculpted integrated curved display with 12.3" driver instrument cluster and multimedia 12.3" touchscreen, offering a whole range of connected services. Everywhere you look, you can see and touch the best luxury materials and fabrics. From the ergonomic seats offering abundant legroom front and back, to fully automatic three-zone climate control and an 8-speaker Harman Kardon sound system. The Sportage is a true driving experience for you and whoever is with you.

Heated and ventilated seats. Whatever the weather has in store, you're ready for it. The front and rear seats can be heated on cold days. Featuring two adjustable settings, they warm up quickly and then level off after the desired temperature is reached. On hot summer days the front seats can be ventilated to keep you cool.

Coat hanger. The Sportage front seat headrests feature a clever hanger feature to store your, or your passengers', coats or garments, to ensure you always arrive in style.

Smart thinking makes all the difference.

Inside the all-new Kia Sportage, you'll find that all-in flexibility and convenience is key to what makes it such an inspiring space for you and everyone around you. There are split rear seating options for ease of loading and clever storage solutions, too. Add to that a smart power tailgate for when you've got your hands full. Kia smart thinking delivers innovative solutions for every eventuality.

40:20:40 flat folding seats. Thanks to clever split rear seat options, the all-new Sportage easily adapts and flexes to whatever task you have ahead of you - great for transporting sports equipment or other bulky items.

Connected technology to stay ahead.

At Kia we know connections count. Not just your connections with people. Connection with experiences. Connection with your ideas, and favourite places or destinations. Connections that inform and entertain you. Connections that keep you up to date and safe. That's why inside the all-new Kia Sportage, you'll find the very latest in seamless and effortless technology, to keep you constantly connected with everything and everyone around you when you're on the move.

Panoramic dual 12.3" curved display. At the heart of the all-new Sportage cockpit sits a dual display touchscreen which is the focal point for all your driving, information, connection and entertainment needs. Take navigation to the next level with turn-by-turn navigation. Keep constantly up to date with the latest over-the-air software and map updates. As well as navigation, you can install the Kia Connect app on your smartphone to interact with your Sportage. That way you can access Kia Connect on-board services which offer a whole host of features, from monitoring up-to-the-minute vehicle diagnostics like fuel level to trip information, to online voice recognition and calendar integration from your smartphone.

Ambient mood light. When creating the interior of the all-new Kia Sportage, we wanted to create a space that felt like home. That's why we've added a special ambient mood lighting system that you can customise to suit your mood when driving. Not only can you choose from a range of colours to suit your journey, but you can choose to automatically change the colour when you change drive modes, too.

Rear USB fast-charge ports. Keep your rear passengers happy with a Type-C USB fast-charge port which is cleverly mounted on the rear panel of the driver and front passenger seat. Perfect for work, play or simply charging.

Multimode control display. Control at your fingertips. An innovative way to make the interior less cluttered and more intuitive. Easily switch between infotainment and climate control with a simple touch.

Wireless smartphone charger. When you're on the move and want to keep connected, keeping your phone fully charged should be the last thing you need to worry about. That's why the Kia Sportage comes with a smartphone wireless charging bay offering high-speed 15 W wireless charging. Just place your smartphone with Qi technology on the convenient wireless phone charger and you are always ready.

Harman Kardon premium sound system. From music to talk, from podcasts to your favourite playlist, experience sound that awakens the senses, with the Harman Kardon sound system. The 8 high-performance speakers are precisely tuned to perfectly match the Sportage unique design and acoustic characteristics. Advanced Clari-Fi™ music restoration technology improves the quality of MP3s and provides high-definition sound, plus QLS technology delivers a truly immersive experience.

Stay connected.

Get inspired.

At Kia, we believe connections can inspire endless opportunities. Opportunities that inspire you to bring great ideas to life. In the car, on the phone, wherever you are and whatever you're looking for. Which is exactly what you'll find with the Kia Connect app and Kia Connect on-board services, designed to constantly monitor your car and offer seamless information about your journey. Be constantly informed on board with online navigation using real-time traffic data, including charging stations, parking, weather and points of interest, plus voice recognition and more. Through the Kia Connect app, you can access User Profile Transfer, Last-Mile Navigation, Valet Parking, Find My Car, Door Control and many other features. With so much at your fingertips, there's never been a better time to make every drive... a truly inspiring drive.

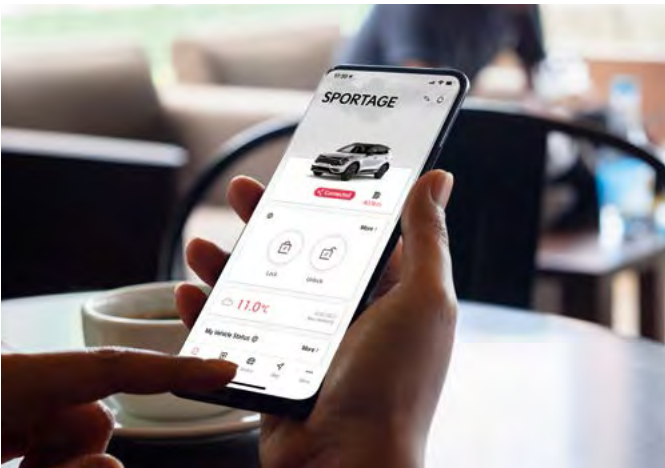

Connect to convenience. Even when you're not in your car, using the interactive Kia Connect app on your smartphone is the easy and convenient way to save time and keep you connected. Tap the Find My Car function to search for your car in large car parks or on unfamiliar streets. Once you've parked, let Last-Mile Navigation take you by the hand and guide you from your car to your end destination. If someone else is driving your car, the Valet Parking function monitors all that for you. Plan and set your journey in advance with Send To Car and check your vehicle status before you go. You can even remotely lock and unlock doors with the Door Control and see your previous journeys summarised under My Trips.

Always on the go. With Kia Connect on-board services, you have access to a whole host of seamless and detailed information for your trip. Navigate the fastest route to any destination with real-time traffic data, including constantly updated adjustments and estimated arrival time. Use Kia Connect live services to track the weather and check parking availability, points of interest and charging stations. Activate voice recognition for hands-free voice commands. Change or restore your vehicle settings with user profile transfer. Access your smartphone calendar on your navigation screen with the third-party calendar and let it guide you straight to the location of your upcoming appointments.

Electric to the touch. When you drive one of Kia's electric models, the Kia Connect app and Kia Connect on-board services keep you firmly in the know and in control. With the Kia Connect app, you can remotely access battery charging to start, stop and schedule your charging progress. With Kia Connect on-board services you can find a charging point under live EV stations; using data from the up-to-date real-time network, you can easily discover the locations of charging stations as well as other details such as plug availability and compatible connector types.

Safety and service support. With Kia Connect, you can keep you and your car safe and sound using a range of ground-breaking remote notifications. Vehicle status offers a comprehensive report on your car including whether windows are open or closed, battery charge and other vital diagnostic information. Kia Connect also sends you important alarm alerts. The anti-theft alarm alerts you to potential break-ins. The vehicle idle alarm notifies you if you forget the engine is running while in Park mode (gear P) with the door open.

* Information and control service for your Kia; the services will be available free of charge for a period of seven years commencing on the day the vehicle is sold to the first owner of the vehicle, i.e. the point in time the initial purchase agreement becomes effective, and may be subject to change during that period. Details of operation and terms of use can be obtained from your Kia partner and on kia.com. Smartphone with iOS or Android operating system and mobile phone contract with data option necessary incurring additional cost.

The displayed Kia Connect screens are for illustration purposes only and do not necessarily show the latest version of the Kia Connect app and Kia Connect on-board services.

For any questions regarding regulations or legal details, please check the Kia Connect Terms of Use.

Innovation through vision.

When inspiration comes calling, the all-new Sportage is never found wanting. That's because we've created a dynamic, engaging and optimal driving experience, debuting numerous highly innovative technology breakthroughs.

Intelligent front lighting system. Creating a clear and distinct difference in driving vision technology. When using the matrix LED headlamps on high beam, if the intelligent front lighting system detects another car driving in either the same direction as you or the opposite direction to you, it will automatically switch the LEDs to low beam to prevent dazzling the other driver. Then when the road is clear it will automatically switch back again.

Rotary gear shift dial. Located centrally and within easy reach, the rotary dial operates using shift-by-wire technology, enabling effortless gear shifting. Just as importantly from a safety perspective, it will automatically shift to the parking gear P if the driver forgets to do so.

Electronic Control Suspension. A new-generation Electronic Control Suspension (ECS)* provides optimum comfort and superior safety levels at all times, thanks to its continuous damping control.

12.3" instrument cluster with widescreen display. Equipped with the latest thin-film transistor liquid-crystal display for incredibly precise and clear graphics. Depending on the powertrain being used, the all-new Sportage offers a range of drive modes ranging from Eco to Sport modes. Once chosen, the different drive mode is displayed on the driver instrument panel.

DriveWise technology for all-round safety.

Keeping you, your passengers and loved ones protected, constantly inspired us to put safety as a top priority in the development of the all-new Sportage. That's why every Sportage comes with Kia's acclaimed in-house developed DriveWise technology. This industry-leading system integrates a whole host of advanced features to minimise the possibility of accidents and maximise all-round protection.

Extra DriveWise options to choose from. Kia DriveWise and DriveWise Park are available on all Sportage models as standard. In addition, you can add two extra options: DriveWise Plus, offering advanced driving-assistance features, and DriveWise Park Plus, with advanced parking-assistance features.

360-degree surround view monitor (SVM). When manoeuvring in confined spaces, multiple cameras give you a zoomable, 360° overhead view around the vehicle, so you can steer and park with confidence. There is no need to exit the vehicle to check clearances or ask others for help.

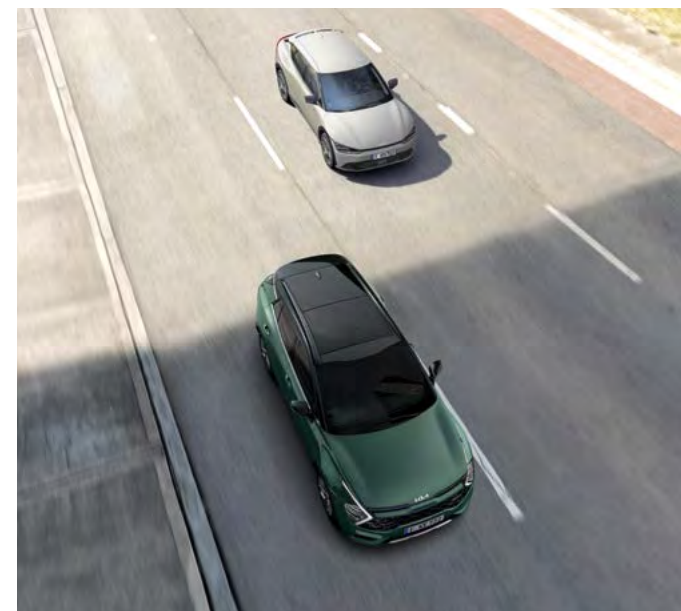

Highway Driving Assist (HDA). Highway Driving Assist is designed for effortless driving on motorways. It automatically maintains the Sportage distance to another vehicle in front as well as keeping it centred in its current lane on the highway. At the same time, it controls steering, acceleration and deceleration whilst you are in-lane. Under certain conditions, the system will automatically adjust the Sportage's speed to match the speed limit information provided by the navigation data.

Forward Collision-Avoidance Assist (FCA). Evaluating both camera and radar data from your vehicle, the FCA system analyses information about other cars, pedestrians or cyclists crossing the road to avoid a potential collision with them. FCA also functions to prevent collisions with vehicles when making a left turn at an intersection. If it detects a potential collision, a warning signal appears on your instrument cluster and maximum braking power is applied.

Remote Smart Parking Assist (RSPA).* Remote Smart Parking Assist lets you safely move your vehicle in and out of tight parking spaces whilst you stand outside. All you have to do is first align your Sportage with the parking space and then get out and use the special controls on your key fob. You don't even need to worry about accelerating or braking.

Blind-Spot Collision Avoidance Assist (BCA). The Blind-Spot Collision Warning system uses a front camera and rear radar sensor to monitor your blind spots and warn you of oncoming cars with a symbol in the side-view mirror. The Lane Change Assist system helps you change lanes safely. If you set the indicator prior to a lane change and the system detects approaching cars in the parallel lanes, the system activates a flashing light in the side mirror to warn you. Should you start to change lane whilst a car is in your blind spot, the system will intervene to avoid a collision.

* Available only on the Sportage Hybrid/Plug-in Hybrid

Luxury from within.

For comfort as individual as you are, the all-new Sportage range offers the ultimate in seat materials, textures, stitching and colours. From cloth and artificial leather to premium suede and artificial leather. Or the ultimate luxury of all-leather. And when you choose the Sportage GT-line, you really can make your mark with stand-out design including GT-line emblem embossing.

EX optional all-black leather. Soft, bolstered seats with black genuine full leather for long-lasting comfort. Also features suede accent on the upper section of the seat and the side of the headrest. To complement the package, there are soft touch upper trims on the doors, as well as artificial black leather door centre panels and artificial leather door armrests. Comes with grey roof lining.

LX standard black cloth. The standard LX grade features black fabric seat and bolster upholstery with black stitching. Comes with grey roof lining.

EX optional black cloth and artificial leather. The black cloth and artificial leather trim seats feature black stitching for added looks. Comes with soft touch upper trims on the doors, artificial leather door armrest trim, optionally artificial leather door centre panels and grey roof lining.

EX standard black cloth. The standard EX grade features black fabric seat and bolster upholstery with black stitching. Comes with soft touch upper trims on the doors, artificial leather door armrest trim and grey roof lining.

GT-line suede and artificial leather. The black suede seating features a quilted design in the centre of the seat. The artificial leather bolster combination is adorned with contrasting white stitching and white piping plus an embossed GT-line logo. To complement the package, there are soft touch upper trims on the doors, as well as suede door centre panels and artificial leather door armrests. Black roof lining comes as standard.

GT-line premium suede and artificial leather. Upgrade to the black artificial leather seating with quilted design across the width of the seat cushion and backrest. With contrasting white stitching and white piping plus an embossed GT-line logo. To complement the package, there are soft touch upper trims on the doors, as well as suede door centre panels and artificial leather door armrests. Black roof lining come as standard.

Tailgate trim line. Add a stylish edge to your tailgate with this trim line. It's eye-catching from the rear, as well as emphasizing the other exterior styling features from every angle. Available in brushed aluminum optic, chrome optic and piano black.

Door mirror trims & Side trim lines. Attention to detail can make all the difference. Trim lines available in brushed aluminum optic, chrome optic and piano black.

Side steps. These side steps evoke a real sense of solid robustness that is sure to appeal to the outdoors adventurer in you.

Tow bar, retractable. Would you like to combine even more comfort with efficient transportation? Deployed and retracted via a switch located in the trunk, this top-quality, fully-electric tow bar conveniently folds up and sits invisibly behind the lower bumper when not in use.

Bike carrier Pro. Make light work of loading and unloading your bike - simply and safely. Once resting on the frame holder, you can adjust and secure your bike single-handedly at roof height using the convenient rotary knobs.

Expand your possibilities.

We've developed numerous purpose-designed Genuine accessories that enable you to create a car that precisely suits your needs, and complements your personality. So whatever you might need - a touch more style, comfort or practicality - our premium accessories offer you the perfect solution.

Cross bars. Light and easy to install, these strong and perfectly fitting aluminium cross bars help you transport all you could possibly need on your next journey.

*Different trims of the all-new Sportage are represented in the imagery.

Colour for character with style.

** WLTP

Complete peace of mind.

When you purchase from the all-new Kia Sportage range, we want you to feel totally connected to your driving experience, not just today, but for years to come. That's why every new Kia comes with exclusive extended warranties.

7-year vehicle warranty. Every Kia benefits from a 7-year/150,000 km new car warranty (up to 3 years unlimited; from years 150,000 km). This bumper-to-bumper warranty is free and transferable to subsequent owners, provided the car is regularly maintained in accordance with the servicing schedule.

Kia 7-year EV/HEV/PHEV Battery Warranty. When you switch to a Kia Electric (EV), Hybrid Electric (HEV) or Plug-in Hybrid (PHEV), it's good to know that our batteries are built to have a long life*. That's why at Kia we are happy to offer you a 7-year warranty either from initial registration or 150,000km whichever comes first. Even for our low voltage (48V and 12V) batteries in Kia Mild-Hybrid electric vehicles (MHEVs), our Kia warranty covers you for a period of 2 years from initial registration regardless of mileage. All of which means you can simply enjoy the experience of driving our eco-friendly range, every day for years to come.

* Please note. For EV and PHEVs only, Kia guarantees a 70% battery capacity. Capacity reduction of the battery in HEV and MHEV vehicles is not covered by this warranty.
